

Brisbane Group Programs & Services (2020)

There are 4-components to the Group Pain Management Program:

1. MDT Assessment Day
2. 4-Day Group Treatment Program
3. Post Program Follow-Up Day (usually 2 weeks after completion of group program)
4. MDT Review Day (usually 3-6 months after starting the program).

We may be able to provide additional services depending on type of needs and staffing availabilities. At times, this may involve joining in with a group for a single session (if appropriate). We can also provide services over telehealth if applicable.

Please email referrals@skip.org.au to enquire about any of these services.
